

5/25/2021

To Whom it may concern,

This letter is going out to all those who may visit any of the Eudora ball fields during the 2021 t-ball, baseball and softball season. As you may or may not know, most of the umpires we employ are youth who have played ball in the past, either in High School and/or a rec team. These are kids helping with the game they love and earning extra money for the summer working as an umpire. EABSA has lost good umpires over the years due to parents and coaches getting on to them.

Questions can be asked about a call or a rule but moving forward EABSA will have a ZERO tolerance policy on yelling or arguing with the umpires. This will be determined by the umpires or the fields supervisor, at their discretion. The umpires will be instructed to stop the game, get a field supervisor and talk to the parties that are involved. It will be up to the field supervisor to give one warning or have the parties remove from the field.

We are simply a league that provides youth a quality recreational experience through a positive learning environment. Please assist us in doing just that.

Zach Brooks

EABSA President
